

Got Bermudagrass?

On-farm Alfalfa and Bermudagrass Hay Demonstrations

Why Interseed Alfalfa into Bermudagrass?

- Grow your own nitrogen!
- Increase the quality of your forage by 30+ RFQ points!
- Makes excellent supplemental feed and/or cash hay crop!
- Growing with bermudagrass allows alfalfa to dry faster and be harvested clean!
- If alfalfa fails, you still have bermudagrass!

Learn more about improving your bermudagrass hay fields and pastures with alfalfa.

Hear from growers that have successfully implemented the program.
