RE: Breeding Soundness Exams of Bulls

The Oconee County Cattlemen's Association will be offering a Breeding Soundness Exam Clinic for producers on Saturday, February 9, 2019 at 11:00 am. The clinic will be held at the corral of J. Davis Cattle located at the end of Stadium Road in Westminster. Stadium road is off hwy 24 at West Oak High School. The cost to producers will be \$65.00 – \$85.00 per bull examined depending on the number of bulls that participate. Also, Dr. Strickland will vaccinate (Modified Live Lepto/Vibrio) and deworm the bulls for an additional \$5.00 per head at the producer's option.

This is a great opportunity for producers to bring their bull to determine if it is suitable for breeding. Many things can cause infertility in your bull. Knowing that your bull has the ability to breed brings piece of mind and can save producers from losing valuable time.

If you would like to bring one or more bulls to have the Breeding Soundness Exam performed by Dr. Tyson Strickland, please call the Extension Office at 864-638-5889. Please let us know your name, the number of bulls, if you want the vaccination/deworming and your phone number.
